

Smart Cafe Ordering System

Jabatan Teknologi Maklumat & Komunikasi (JTMK)

Project Title

Smart Cafe Ordering System

Group Members

Danish Akhtar

Jane Smith

Michael Lee

Sarah Lim

Project Objective

To develop a digital platform for students and staff to order food efficiently using a mobile-friendly web system.

Project Description

This project involves the creation of a web-based ordering system for cafes, particularly targeting campus cafeterias.

Users can browse the menu, place orders, and make digital payments. The system streamlines order management and reduces queue time.

It also provides order tracking and automatic printing for the kitchen side.

Tools and Technologies Used

HTML5, CSS3, JavaScript, jQuery Mobile, PHP, MySQL
